OUNTY OF LAKE

OF COPIES OF OFFICIAL RECORDS

- I, Carl Broman, being first duly sworn upon my oath, state:
- l. I am the duly appointed Superintendent of the Environmental Control Department of LTV Steel Company's Indiana Harbor Works. In this capacity, I have legal custody of the records of said Department.
- of three copies, each bearing the same document number unique to that manifest. Copy 1 of each manifest (the generator's copy) is divided into two perforated parts, Part A and Part B. The document number is printed on both parts. For each shipment of hazardous waste reflected in the manifests, J & L filled out Part A in triplicate, indicating the names, addresses, telephone

numbers and EPA I.D. numbers of the generator, transporter and disposal facility as well as the quantity, EPA hazardous code, EPA waste type (hazardous waste number) and description of the waste. A representative of J & L signed part A and obtained the transporter's signature on Part A in triplicate, then retained Copy 1 of Part A for J & L's files. The transporter took the remaining manifest copies (Copy 1 of Part B and Copies 2 and 3 of Parts A and B) with the shipment to the disposal facility, Gary Development Company. Upon acceptance of the waste by the disposal facility, a representative of the disposal facility signed Part B of the manifest in triplicate. Copy 1 of Part B of the manifest was returned to J & L where it could be matched to Part A by means of the document number. Copies 2 and 3 of Parts A and B were retained by the transporter and disposal Thus, the generator, transporter and disposal facility each could possess a copy of the entire manifest bearing the signatures of all three parties. The attached documents are copies GYEEPT AS NOTED CD of Part A and B of Copy 1 Nof each manifest retained by J & L as generator of the waste, matched according to document number.

IN WITNESS	WHEREOF,	I have	hereunto	set my ha	nd at
EAST CHIERO,	Indiana,	this _	10th	day of N	ovember, 1987.
